

PROJECT PROFILE

25,000 SF flooring system repaired – plus non-skid, antimicrobial surface added ... in just 7 days

CUSTOMER

Kellogg NA Co.
Cary, NC

PROJECT TEAM

PolySpec® Construction Services, Inc. & Jacobs Engineering
Houston, Texas

INDUSTRY

Food and Beverage Processing

PROJECT OVERVIEW

Kellogg NA Co. had an existing 25,000 SF packaging area where the Cheez-It® crackers are packaged for distribution. The existing floor surface was badly gouged and damaged from packaging equipment and vehicular traffic.

- Install containment around the entire 25K SF area
- Properly wrap all fixed equipment to prevent contamination
- Patch and repair existing floor surface
- Apply PolySpec Non-Slip Resurfacing System
- Complete job during a short 7-day shut down period

KEY CONSIDERATIONS

Surface/Products: had to be seamless, abrasion resistant and contain anti-microbial.

Timing: Construction management team needed to mobilize with short notice, and complete the job quickly to prevent plant downtime.

Finished Look: Overall appearance of finish job needed to look professional to meet Kellogg's Corporate Standards.

SYSTEM PRODUCTS
